## **KOBUSSEN BUSES LTD. TO SERVE SUN PRAIRIE AREA SCHOOLS**

Kaukauna, Wis. – Kobussen Buses Ltd. is the new neighbor on the block in the Sun Prairie area. The Kaukauna-based transportation company was recently awarded a contract to provide transportation for most students in the school district.

“We’re excited to serve the Sun Prairie Area School District,” said Joseph Kobussen, owner of the 68-year-old transportation company. “We’re going to have a state-of-the-art facility and school buses that will provide safe, reliable service to the community. We know that happy drivers are safe drivers; that is why we have equipped the buses with such things as power heated mirrors, tilt telescoping steering wheels, and LED lights.”

The company offers a number of transportation services, including motorcoach travel, student bus travel, and special needs travel. The company can accommodate groups of one to 10,000 using vans, school buses, mini coaches, and luxury motorcoaches.

The bus contract, which begins in September 2006, is indicative of Kobussen’s growth, and means Sun Prairie students and their families will have a new community-minded neighbor in Kobussen.

“We intend to be an active member of the Sun Prairie community,” Kobussen said. “We’ll be locating a terminal in the school district, reinforcing the fact that we are going to be a part of the community.”

Kobussen also plans to reach out to district drivers.

“We’re interested in hiring the current drivers and staff from Sun Prairie,” Kobussen said. “We want to employ as many local people as we can.” Those interested are encouraged to call Kobussen Buses’ Kaukauna office at 800.447.0116 or visit [www.kobussen.com](http://www.kobussen.com) for more information.

Kobussen boasts an excellent safety record. The company’s school buses and motorcoaches have safety features that exceed state and federal requirements, and the company’s strict safety programs and policies keep drivers constantly aware of new laws and safety concerns.

The company, founded in 1938 by Elwood (Goldie) Kobussen, a dairy farmer and trucker by trade, employs about 400 people.
